MEETING MINUTES

Lealman CRA Advisory Committee

Wednesday, August 26, 2026 at 6PM

Committee Member Present In-Person: Kim Blessinger, Kenneth Williams, Charles Flynt, Jeremy Heath, Tyler Payne, Jennifer Post

Committee Members Absent:, Tony Coryn, Tahisia Scantling, Dominic Howarth

Pinellas County Staff Present: Amy Davis, Cameron Ehmgig, Colan Trembl, Jason Ester

I. Call to Order: Chair Kim Blessinger called meeting to order at 6:00pm.

II. Introductions

III. Citizens Input: None

IV. Approval of Minutes: Chair Kim Blessinger requested a motion to approve the 7-22-2026 minutes. Committee member commented that the Citizen Advisory Committee was not given all the pertinent information about the funding of the gym hardening project at the last meeting. Committee member also commented that the Board of County Commissioners was under the impression that the LEX Gym Hardening was being funded solely by Penny for Pinellas. Staff clarified that the funding from the State was vetoed, and the federal money is in the form of a grant that required a quick turnaround.

Motion by Tyler Payne, seconded by Jennifer Post. Vote: Approved unanimously with no changes.

V. Lealman CRA Agenda Items

1) Lealman CRA Plan Update – Kickoff Presentation by GAI Consultants, Claudia Ray and Tom Kohler

- Tom Kohler was the CRA director for Downtown Orlando for 25 years, Claudia is an urban-designer and trained architect. Their assignment is to update the 2016 CRA Plan and establish a vision for the next 10-15 years, final plan to be completed and finally adopted around October 2027.
- Key focuses of the plan will include commercial corridors, making mobile home communities more resilient, and continuing residential improvement and Joe's Creek Industrial Area efforts.
- Claudia presented some examples of other CRA plans her team has completed. Committee member asked about the prevalence of land banking or bonding; Claudia and Tom said it is common but depends on resources and leadership. Claudia reviewed the original 2016 plan and what has been accomplished so far, including code enforcement, sidewalks, murals, and placemaking. She highlighted some persistent challenges such as building deterioration, inadequate pedestrian facilities, and flooding and drainage.
- Claudia opened the floor for discussion, and asked members to list the CRA's most significant accomplishments, as well as challenges or barriers affecting the CRA today.
 - *Significant Accomplishments:* murals and art program, sidewalks and repaving, code enforcement, Lealman Heights, wayfinding, alleyway cleanup, grant programs, cleaning up commercial properties
 - *Significant challenges:* food desert, crime, no major feature tying into the neighborhoods (i.e., connectivity, major employers), attracting commercial construction
 - *Other notes:* Businesses that are getting pushed out of St. Petersburg due to high rent are coming to Lealman. Lealman Heights is becoming a hub of workforce

housing. Having alleyways is a great asset for building and accessing ADU's. Claudia advised to cluster redevelopment instead of scattering throughout the area.

Committee members mentioned Haines Rd. as an area to focus redevelopment.

- *Focus areas for the next 10-15 years:* incentivize restaurants and grocers; connecting with landowners; attracting locally-owned businesses; redevelopment with new SWFWMD requirements for retention; mobile home communities; 54th Ave. and Haines Road commercial corridors; opportunities to create interesting destinations just off Joe's Creek Greenway Trail; building relationship with school district/school board

VI. Additional Lealman CRA and Non-CRA Updates by Colan Treml and Amy Davis

- CRA team is receiving and reviewing applications for the newly updated Commercial Grant program
- Joe's Creek Mixer: December 10th at Fiberglass Coatings
- ADU grant is going through departmental review
- Lealman Heights: more home dedications to come, townhomes in process
- Frontage on 54th: pursuing second appraisal
- Budget Work Session: 9/10 and 9/24 at 2pm
- Duke Energy: Distribution line undergrounding on 46th Ave., to be completed mid-October
- 28th St. sidewalk is moving along
- 57th Ave. N. tree planting
- Florida Dream Center deadline for site improvements extended to 10/4

VII. Advisory Committee Member Comments: None

VIII. Adjourn: Motion by Jennifer Post, seconded by Charles Flynt. Meeting adjourned at 8:09pm.

Lealman Hot Spot Analysis

2016 • 2021 • August 5, 2025-August 5, 2026

2016 Hot Spot Analysis

The 2016 Lealman crime heat map shows activity distributed throughout the central portion of the study area, with two notable concentrations identified along the eastern portion of Lealman. The northern highlighted area, near 54th Avenue North, includes the Quality Inn and RaceTrac, with aggregated clusters of approximately 46 and 54 incidents, respectively. The southern highlighted area includes Florida Sands Mobile Home Park, where the largest identified cluster contained approximately 88 incidents, as well as an additional concentration of approximately 51 incidents in the Grove Park Avenue North area. Smaller clusters are also present within and immediately surrounding both highlighted areas. Overall, the 2016 pattern indicates that elevated activity was not attributable to a single location, but was concentrated among several nearby commercial, lodging, and residential areas along the eastern portion of the Lealman study area.

2021 Hot Spot Analysis

The 2021 Lealman crime heat map shows activity dispersed throughout the central portion of the study area, with a prominent concentration identified near the 34th Street North corridor between approximately 48th Avenue North and 52nd Avenue North. A closer examination of this area shows elevated activity surrounding three neighboring lodging establishments: Gateway Motel, Red Roof Inn, and Days Inn by Wyndham. The largest aggregated cluster within the highlighted area contained approximately 87 incidents near the Red Roof Inn, while an additional cluster of approximately 54 incidents was identified near the Days Inn by Wyndham. Several smaller concentrations are also present throughout the immediate area, including 35 near the Gateway Motel. Overall, the 2021 pattern indicates that the primary hot spot was concentrated within a relatively compact area containing multiple lodging establishments rather than being attributable to a single location.

2025-2026 Hot Spot Analysis

The 2025–2026 Lealman crime heat map shows activity dispersed throughout the central portion of the study area, with a prominent concentration continuing along the 34th Street North corridor near 50th Avenue North. A closer examination of the highlighted area shows elevated activity surrounding the Gateway Motel, Red Roof Inn, and Days Inn by Wyndham. The largest aggregated cluster contained approximately 71 incidents near the Red Roof Inn, while additional concentrations of approximately 48 incidents near the Days Inn by Wyndham and 43 incidents near the Gateway Motel were identified. Overall, the 2025–2026 pattern indicates that the primary hot spot remained concentrated within the same general lodging and commercial area identified in 2021, although the individual cluster concentrations and their distribution within the area changed over time.

Comparative Analysis

The comparative analysis of the three Lealman crime hot spot study periods shows changes in the location and distribution of the most prominent concentrations. In 2016, elevated activity was distributed among multiple locations, including Florida Sands Mobile Home Park, the Grove Park Avenue North area, and commercial and lodging properties near 54th Avenue North. Compared with 2016, the 2021 analysis shows a more geographically concentrated hot spot along the 34th Street North corridor near 50th Avenue North, in the vicinity of the Gateway Motel, Red Roof Inn, and Days Inn by Wyndham. The 2025–2026 analysis shows that this same general area continued to be a prominent hot spot, although the size and distribution of the individual concentrations changed. Taken together, the three study periods identify the 34th Street North corridor near 50th Avenue North as an area of recurring concentrated activity in the two most recent analyses while demonstrating that the location and distribution of concentrated activity within Lealman have changed since 2016.

Lealman Crime Statistics

2016 • 2021 • August 5, 2025-August 5, 2026

The table below compares selected charge counts associated with Pinellas County Sheriff's Office offense reports in the Lealman study area during 2016, 2021, and the one-year period from August 5, 2025, through August 5, 2026. The requested categories include Property Crimes (Burglary, Larceny/Theft, Arson, and Motor Vehicle Theft), Prostitution, Assault, Battery, Drug Charges, and Vandalism. Lealman data was compiled by querying Pinellas County grids 525, 541, 555, 556, 557, 570, 571, 572, 585, 586, and 587, then excluding reports not generated by the Pinellas County Sheriff's Office. Because the data is categorized by charge type, a single offense report may be represented more than once when it contains multiple applicable charges.
